## RG 7000 - Conveyor Belting / Rubber Repair Material Kit

### REMA TIP TOP'S NEWEST BELT REPAIR MATERIAL

- REMA TIP TOP RG 7000 is a versatile, fast drying rubber repair material
- Highly flexible with strong adhesions to prevent failures
- Doesn't gum up or melt during buffing at low speeds

### KEY ADVANTAGES

- Durable, long lasting belt repair
- Functional cure in 1 hour
- Apply to vertical or horizontal surfaces
- Moderate oil & solvent resistance
- Fast set time makes installation on incline and vertical surfaces easy
- Can be used with belt scrapers
- May add uncoated breaker fabric in damage area for reinforcement, if desired
- Can be installed over metal fasteners with PR 200
- Available in 2 sizes; 300g kit & 750g kit

### CAN BE APPLIED TO:

- SBR Belt
- Urethane Belt
- PVC Belt
- Sheet Metal

### KIT CONTENTS

- Resin, Solvent, Primer, Hardener
- Stir Stick, Gloves, Brush, Spatula
