

// ONE BRAND // ONE SOURCE // ONE SYSTEM

REMA TIP TOP Chemical Products - CFC Free Formulas

BENEFITS

- Optimizes Blue Bonding System repairs
- CFC Free chemical formulas
- Uniquely blended for reduced drying time
- Preferred by Tire Technicians world-wide

SPECIAL BLUE CEMENT

The key to REMA TIP TOP's exclusive Blue Bonding System, Special Blue Cement creates a nearly indestructible bond between tire and repair unit. Special Blue Cement (flammable) is free of CFC and aromatic compounds. Specifically designed for the application of REMA TIP TOP Radial, Bias-Ply and Universal, MINICOMBI & REMASTEM repair units. Use for chemical installation of REMA TIP TOP blue bonding layer repair units, Blue Floater Gum and chemical vulcanizing compounds.

LIQUID PRE-BUFF CLEANERS

REMA TIP TOP Pre-Buff Cleaners are specially formulated to dissolve mold-release lubricants and other contaminants creating a clean surface prior to innerliner buffing. Available in spout-top liquid or spray-top aerosol dispensers.

- CFC-free formula requires shorter drying times.
- Same formula for tube or tire preparation.

INNERLINER REPAIR SEALANT

REMA TIP TOP's new 76F Repair Sealant is CFC-free and requires shorter drying times. Properly applied, 76F Repair Sealant creates an airtight seal around a finished repair, over buffed areas or porous tire innerliners. Prudent use of 76F Repair Sealant maintains the integrity of the repair.

RIM & BEAD SEALER

REMA TIP TOP CFC-Free 960F Bead Sealer is designed to prevent leaks between the tire and rim.

- Designed to be applied to tire beads during the mounting process.
- Ideally suited for use with new or old tires.
- CFC-free formula requires shorter drying times.
