REMA TIP TOP Radial Tire Repair Units - OTR

REMA TIP TOP's famous RAD-100 Series Radial Repair Units, another member of REMA TIP TOP's Blue Bonding System™, revolutionized radial tire repair. With far better adhesion power than most other repair systems and an extensive range of sizes, RAD100 Series Radial Repair Units can be cold or hot vulcanized, making them an ideal choice for tire dealers, retreaders or fleets. RAD100 Series repair units are specially constructed to absorb and disperse high flex forces. When used with Special Cement BL, the center-over-injury repair units become a dynamic part of any radial tire.
