

Exclusively from REMA TIP TOP/NORTH AMERICA

# REMA GOO

**REMA Goo** is designed to be a high performance temporary conveyor belt repair product that allows you to fix your belt in less than an hour. (Note: repair times are dependent on cure temperatures.)

- Longer Lasting Performance
- Faster On-Site Repairs
- Easier to Apply
- Lower Unit Cost

## Longer Lasting Performance

- **REMA GOO** Flexible Conveyor Belt Repair Material is formulated to last longer.
- **REMA GOO** is a 100% solids polyurethane formulation which meets VOC regulations. It does not post harden and will remain flexible. It also resists shrinking after application and exhibits good UV resistance.
- **REMA GOO**'s flexible formulation reduces the chance of bond failure at edges of repair caused by rounding over conveyor pulleys.
- **REMA GOO** cures to a softer 60 ( $\pm 5$ ) Shore A Durometer which allows the repair to wear at a rate similar to that of the conveyor belt covers.
- **REMA GOO** exhibits excellent adhesions to conveyor belt.

## Faster On-Site Repairs

- The most common types of conveyor belt damage which are cuts, gouges and small holes can be completely repaired with minimal system downtime.
- No hand mixing of material is required. The **REMA GOO** is applied by using the **REMA GUN** Manual Dispenser.

ONE BRAND – ONE SOURCE – ONE SYSTEM

Exclusively from REMA TIP TOP/NORTH AMERICA

# REMA GOO

## Easier to Apply

- **REMA GOO** comes is a twin tube cartridge and is dispensed with a heavy duty **REMA GUN**. Once the damaged area has been prepared and cleaned, just remove the cap, slip the **REMA GOO** cartridge into the gun, put on the mixing tip and simply fill the repair.

## Lower Cost

- **REMA GOO** is more material for the money compared to many of the leading repair materials in its class.
- Not only is there “**More GOO for the Buck**”, but there is very little waste. You can use only what you need for your repair and save the rest for your next repair.

**REMA GOO** can also be used over mechanical fasteners with the proper preparation
