

REMACLEAN SGB

Cleated conveyor belt cleaning brush

REMACLEAN SGB – the cleaning system for cleated conveyor belts – the one and only worldwide

Innovative cleaning

REMACLEAN SGB is the most effective cleaning system for inclined conveyors (cleated conveyor belts) on the market, offering a compelling range of excellent product features. Customized geared electric motors, tuned to belt width, belt speed and height of the cleats, deliver an optimum cleaning result. The specially developed rubber bristles, made of proven **REMALINE**-quality rubber, ensure a particularly long, low-wear service life.

The intense, yet gentle belt cleaning action of **REMACLEAN SGB** therefore guarantees a long service life for your cleated conveyor belt. A permanent reduction in operating costs means our brushes are a worthwhile investment.

Typical areas of application

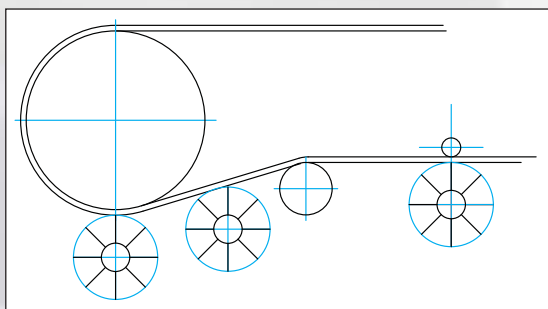

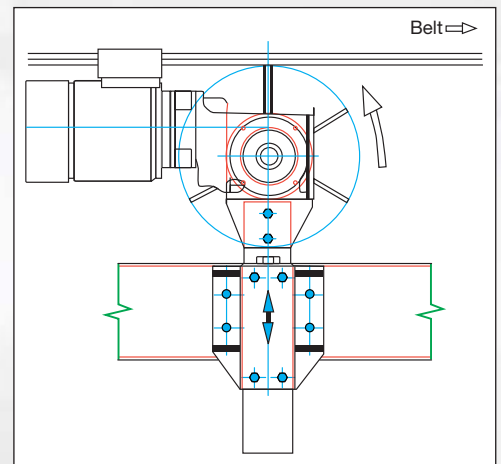

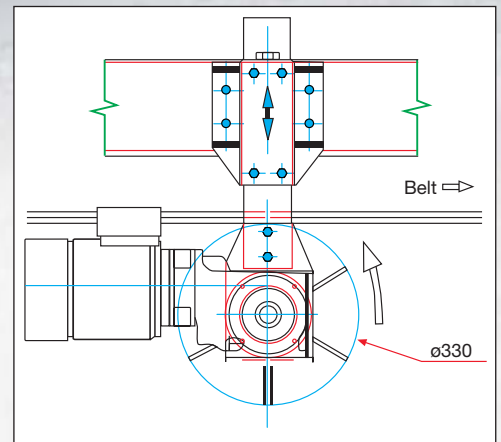

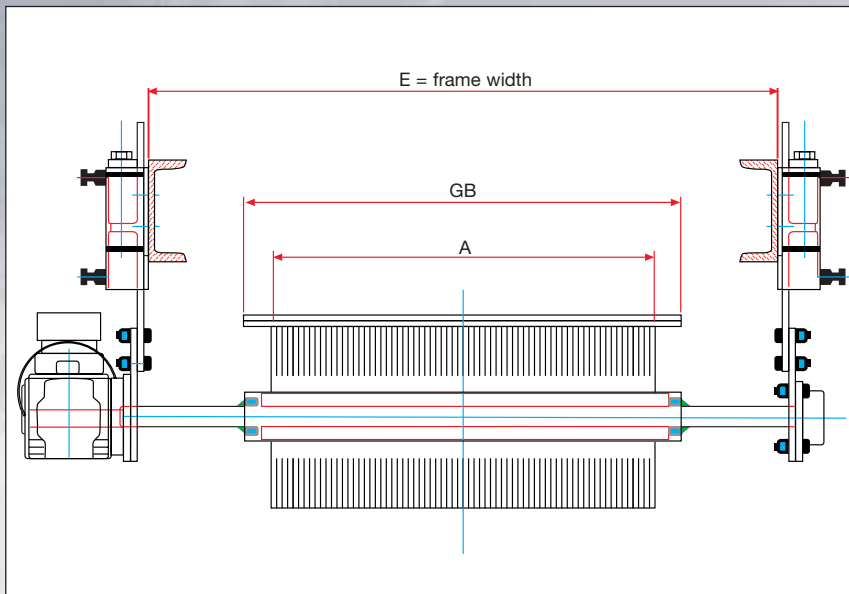

- Nonmetallic minerals industry
- Lumber and particle board mills
- Calcareous sandstone processing plants
- Composting facilities

One Name – One Source – One System
