

The solution for extreme material flow problems

# REMAFLON

Our high-quality **REMAFLON** lining is a combination of polytetrafluoroethylene and rubber. They feature especially slippery surfaces, thereby preventing extreme build-up and material flow problems.

## Application areas

**REMAFLON** ensures perfect protection in most applications where dust or very fine and slightly moist material prone to build-up has to be conveyed. In particular, the virginal PTFE surface of **REMAFLON** features outstanding anti-adhesive properties, which make the surface even more slippery. This has proven especially useful in the sugar and glass industry, as well as coal processing applications.

Lining of a classifier wheel shovel

## Typical fields of use

- Lining for gutters, slides, transfer stations and containers
- Coating for walls and outlet elements in glass production
- Lining to prevent bridge formation and blockage

## Advantages

- Protection from material flow problems
- Very good chemical resistance
- Noise reduction in your equipment
- Easy and fast installation
- Technical consultation and data available anytime
- ▶ **Increases the efficiency of your equipment**

The solution for extreme material flow problems

# REMAFLON

Industrie

## Technical properties

<b>Product characteristics</b>	Combination of polytetrafluorethylene (PTFE = Teflon) and rubber/CN <ul style="list-style-type: none"><li>▶ Very slippery surface</li><li>▶ Heat-vulcanized permanent bond between PTFE surface and the special rubber layer</li></ul>
	CN bonding layer: <b>REMAFLON</b> comes equipped with a CN bonding layer, which affords the product an extremely good adhesive quality in combination with the <b>REMA TIP TOP</b> adhesive systems.
<b>Surface color</b>	white, PTFE virginial, 1 mm
<b>Base color</b>	Rubber (black) with CN bonding layer, 2 mm
<b>Special features</b>	<ul style="list-style-type: none"><li>▶ Certified food-safe</li><li>▶ Excellent anti-adhesive properties thanks to extremely low clinging and frictional values</li></ul>
<b>Item no.</b>	550 7003
<b>Dimensions (mm)</b>	3 x 1 200 mm with available lengths ranging from 2 - 30 m
