6. Material Conveyed:

Type of Material: _____

Size of Material: _____

Composition of Material: _____

Tons per Hour: _____

Specific Weight of Material: _____

Humidity %: _____

Oil Content or Chemicals Present: _____

Constant Operating Temperature: _____ Peak Temp.: _____

7. System Details:

Conveyor I.D. Number: _____

Incline

Decline

Horizontal

Type of Take-up: _____

Take-up Weight: _____

8. Sketch of System:
