## REMA TIP TOP - REMACLEAN CAB

REMACLEAN CAB Green and REMACLEAN CAB Grey are three-ply combi scraping rubber (CAB) with a wear resistant outer layer and elastic inner layer.

# REMACLEAN CAB

## PRODUCT DESCRIPTION

- Consists of three layers of rubber, two hard rubber outer layers surrounding a soft inner core.
- This combination provides excellent conveyor belt cleaning and can utilize existing scraper devices mounted on the system.
- The dual rubber design provides the best cleaning and abrasion resistance available.
- It routinely outperforms urethane and other rubber compounds for service life and cleaning ability.
- Harder outer layers provide a scraping/cleaning effect, while the softer inner layer bulges out under compression and provides a wiping/cleaning action.

## PRODUCT OVERVIEW

- Scraper rubber may protrude from its support up to 1.5 times its thickness
- Excellent wear resistance
- Very belt friendly
- low friction on conveyor belt
- Production widths up to 78" wide
- Designed for temperature ranges of -40°F to 158°F
- Can be used with V plows and angled plows
- More forgiving to your belt fasteners and vulcanized splices than Urethane scrapers

## TYPICAL APPLICATIONS

- Universally applicable as a scraper for granular, slightly sticky and moist material
