REMAWRAP - Pipe Wrap/Repair Material

PRODUCT OVERVIEW

REMAWRAP is designed for your maintenance crews when leaks are identified. The flexible rubber wrap temporarily patches the leak until a permanent patch can be performed by your maintenance department.

REMAWRAP soft rubber is easily applied by tightly stretching the 2" wide strip over the damaged area until the leak has been stopped.

TYPICAL APPLICATIONS

- Quick Temporary Pipe Wrap for Repairs of Leaking Pipe

ADVANTAGES

- Good UV Resistance with Grey Side Exposed to the Weather
- Easy to Apply—Soft rubber with Excellent Elongation
- Good Abrasion Resistance in Slurry Pipe Applications
- Supplied in a roll that is 2" wide x 33' long and can be used over and over again
